—Mrs. M. B. Coffin, nee Minnie Gibbs died yesterday afternoon, and all who knew her will be dreadfully shocked to learn that she has gone. Only a few days ago her little son was born, and the life of the mother was sacrificed for the life of the child. Mrs. Coffin was beloved by everybody, and her husband and family have the heartfelt sympathy of all in their great bereavement.—Journal.

—The fortune teller and Prof of Palmistry who has been going about examining ladies hands for a dollar a head—we mean hand, is still buzzing around the city. He is said to be an expeditious who walked in several six-day matches in San Francisco. The present condition of the roads to Reno are good.

—It is said that a man could easily carry \$40,000,000 if the money was in \$10,000 bills. It is worth while for every man to know this so as to be prepared for an emergency.

NOTICE OF ANNUAL MEETING.

THE ANNUAL MEETING OF THE stockholders of the Virginia and Truckee Railroad Company will be held at the office of the Company, in the City of Virginia, Nevada, on **TUESDAY THE TENTH (10th) DAY OF MAY, 1887** at 10 o'clock M. **E. B. YERINGTON,** Secretary.

GERMAN OPERA.

A Proposition to Bring it to Carson.

Manager Piper requests us to state that he has perfected arrangements with the famous Thalia Opera Company, of New York, now playing a successful engagement at Baldwin's Theater, San Francisco, to appear in this city for one night (May 6th), provided our people will take and pay for a sufficient number of reserved seats at \$1 in order to secure a paying house. The company will give its opera in German. It is composed of thirty-five people, and forms one of the most complete operatic organizations in the country. The press universally speaks of the company in the highest terms of praise, and as an artistic combination superior to anything in that line in America. To bring this company to Virginia, Carson and Reno will entail an enormous expense, and Mr. Piper asserts that if the bare expenses can be secured, guaranteeing the company and himself against loss, he will give our music-loving people an opportunity to enjoy this rare lyrical treat. The box or subscription sheet will be opened this morning at Tobin's cigar stand and if sufficient seats, at \$1, are secured by Monday at 2 o'clock he will close the contract. The company will produce the Black Hussars, or The Merry War, neither ever played here before, or any other opera in their repertoire our people may prefer. German opera is somewhat of a novelty, and ought to pay for one night. It is not the dialogue, but the music that charms the auditory, and therefore the opera given in German will not detract from its musical beauties.

The National Drill.

From a private letter from Paul Roux the APPEAL makes the following extract regarding the National Drill:

"The National Drill to take place in Washington next month promises to be a grand affair, and visitors from all parts of the country have already engaged rooms at the city hotels. The color line crisis has been safely passed, and the smoke it occasioned has blown away. Only three companies, the Montgomery True Blues and Greys and the Atlanta Rifles have withdrawn, while the vacancies were more than filled at once by the admission of additional troops from other parts. Two companies in Texas, two in Mississippi and one in North Carolina made inquiries about the participation of colored militia, but they have not announced their withdrawal.

The only colored companies that applied for entry were two of the regularly organized militia of Virginia and one from this city. Fortunately the prejudice against having them compete for the prize is confined to a few reactionaries, whose secession will not affect the success of the Drill. This kind of bourbonism it was hoped had entirely disappeared. Colored companies form a part of the militia in nearly every State, and no gathering of militia could be national in any sense from which the colored element was excluded. If the colored troops out drill the white ones the latter will see where they ought to improve. A popular comment upon the course of the affronted Southerners who preferred to back out rather than contest with colored military is that they are a good many years behind the times. There is no social feature connected with the matter at all."

Burial of Patrick Barnes

—John Hove and Robert Ames arrived with the body of Patrick Barnes, yesterday morning, the man who was killed by his own wagon 1500 pounds passing over his head and crushing it badly.
Deceased was a native of New York, where his mother now resides. He was a great favorite with the Indians in and around Wellington and when the news of his sudden death was brought to them they all shed tears. He had not an enemy in the State of Nevada, and his unlooked for death will be regretted by all who knew him. Two of his friends from Wellington were eyewitnesses to the accident. He was buried from the Catholic Church yesterday afternoon.

A Big Cut.

As usual Job Sterngburg is the first to give the public the advantage of cheap strawberries. He announces three boxes for 50cts.

ALL SORTS.

—Wizard Oil at Geo. Thaxter's.
—Everything points to good times in Nevada this Summer.
—The Iowa mine is to have a mill shortly. It will be Col. Thomas soon.
—Sutherland the tailor is back at his old stand next to the Dairy Restaurant.
—The storm yesterday morning was only regarded as a starter and more is expected.
—The APPEAL acknowledges tickets to the social party at Armory Hall, May 3rd.
—The opening of the Lake season is expected to be a few weeks later than usual this year.
—The teachers of the public schools will give their operette next Saturday evening.
—A man had his eye blacked in this city the other day for alluding to another as a commodity.
—Ike Frohman thinks of advertising Senator Stewart under the head of "Lost." Hasn't heard from him since he left Daluth.
—The bootblack expert at Sweeney's is round again, having recovered from his rheumatic attack. His qualities as a shiner are not impaired.
—Owing to the absence of Rev. J. L. Woods, there will be no preaching in the Presbyterian Church today. Sabbath school as usual.

—Whenever Jake Klein sends a keg of beer to the APPEALSANCTUM, Clem Berry sweeps the place out with the regularity of clock work—until the beer is gone.

—Elder Chapter, No. 3, O. E. S., will hold its regular monthly meeting next Monday evening at 7:30 o'clock. **MRS. P. T. FOLSOM,** Sec.

—Keyser & Elrod's ranch was not sold at auction on Friday as contemplated, there being no bidders present. Such a splendid ranch ought to sell well if the contemplated sale were generally known.

—The APPEAL thanks Mr. Geo. Thaxter for a photographic copy of the target shot April 26 against the Topeka club. It is a grand total of 1,347 with an average of just a little under 75. This is the largest 200-yard score ever made in the world.

—If the cranks think that the people of Carson are groaning under such a load of oppression, why the deuce don't they run a ticket and give everybody a chance to lift the load. The trouble with the ticket is, that after the self constituted head got on, he was unable to find any traveling companions.

—The citizens of Winnemucca have met and published some vigorous resolutions, calling upon the Interstate Commerce Commission to return Section 4 and called upon other cities to meet Saturday, May 7th and adopt similar resolutions. Section 4 is the only Section that can possibly help Nevada.

—The express robbers who robbed the Southern Pacific train, were a daring set of rascals. "The detectives have picked up a letter which they consider a clew, as it outlines the whole plan of the robbery. Such a letter is much more likely to be a blind, than a clew, dropped in a convenient place for the detectives to pick up.

—An English tourist yesterday asked what would be the result of the Presidential election next Monday. When informed that it was only to elect City Trustees he was quite astonished, and muttered something about "The dam blasted idiot." He had evidently had the importance of the election somewhat magnified by reading a Mugwump newspaper.

—The discovery is announced that the six men who started the carpenters' strike in Chicago are all foreigners, not naturalized, and can't speak a word of English. This seems to prove that Americans are the biggest fools in the world. Does anyone imagine that six Yankees could go into any of the great cities of Continental Europe and there invite artisans to quarrel with their bread and butter? Yet Americans let raw immigrants do this with them.—Alta.

PACIFIC COAST ITEMS.

—The races begin at Sacramento next Tuesday.

—Fidel Galgiani, an Italian truck gardener near Stockton, has been arrested and charged with murdering his wife.

—A denial that the cholera is at Guaymas, Mexico, is made under the signatures of prominent municipal and commercial citizens of that port.

—The San Diego and Colorado Water Company has entered into negotiations with the Holly Manufacturing Company of New York for a new water-works machinery.

—Isaac Reed, a veteran of the war of the Rebellion, committed suicide at Los Angeles. He was despondent, having suffered much from wounds received in battle.

—Col. H. H. Boyce, it is stated, will sue the Los Angeles Times for libel, fixing damages at \$50,000. An article on a land company with which Col. Boyce is connected is the grounds for action.

—An Indian at Austin, the other day painted his gums a deep red, and his teeth a dark green. In a few hours he came very near dying from stomach poisoning. He swallowed some of the paint.

—Young Woods was acquitted on the charge of murdering Lee Patton, his hunting companion, last February. The evidence was wholly circumstantial and unsatisfactory.

—A boy named George Nideau was shooting at a target on Friday at Florence, Los Angeles county, when a buggy containing three children unexpectedly came within range of the gun, and one of the children, Pearl Todball, ten years old, was shot through the body.

—A railroad is likely to be built from Brighton, Sacramento county, to Oleta, Amador county, and continue on into the timber belt of El Dorado, terminating at Pipi. The distance from Brighton to Pipi by the proposed route is about one hundred miles.

—The Newport and Kings Valley Railroad Company, with a capital of half a million dollars, was incorporated at Salem, Or., on Thursday. It was proposed to build a narrow-gauge road from Yaquina Bay across the mountains to Kings Valley, near Corvallis.

—The surveyors in the employ of the Donahue people are still at work on the proposed Western branch, via Sebastopol and Green Valley. The Chief Engineer of the company says they have decided to make Russian River Station, on the narrow gauge, the objective point instead of Occidental as heretofore intended.

—In the Southeastern portion of New Mexico a strange disease has appeared among the cattle. Stock growers think it is caused by a species of clover which abounds this year, with which the cattle gorge themselves and then drink great quantities of water. Sometimes twenty in one herd will die in one day, and they among the best-conditioned animals.

Palmer & Key's Specimen Book.

The APPEAL is in receipt of Palmer & Key's specimen book. The type foundry contains all that any printer on this Coast needs and they can furnish any kind of type-sorts etc. Pacific Coast printers should bear in mind that there is a type foundry on this Coast which is much cheaper to patronize, than any similar institution East of the Rocky Mountains. They also have a complete cypher so that large orders can be sent by telegraph in a compact dispatch of ten words.

—The barometer is considered a failure in this section as a storm indicator, and for the present one has to fall back on the reliable corn which sprouts on the small toe.
